

I-30 Deck Park Planning Study

Little Rock, Arkansas
Pulaski County

PUBLIC ENGAGEMENT

Listening to Our Community

The I-30 Deck Park Planning Study is dedicated to meaningful public involvement.

How We Engage

1. Community Engagement Meetings:

Community engagement meetings use an open, interactive format with stations and displays. Attendees can ask questions and share feedback directly with project staff and CAB members. There will be a total of three Community Engagement meetings.

2. Community Advisory Board (CAB):

The CAB is made up of local leaders, advocates, and residents who serve as a bridge between the study team and the community.

3. Study Website:

The study website serves as a central resource for accessing project updates and study materials, learning about upcoming community engagement opportunities, and providing comments and feedback to help guide the development of the project.

4. Informal Feedback Channels:

A dedicated email address, voicemail number, and mailing address will be provided for the duration of the Planning Study, allowing the public to share their comments.

Your Voice Matters

Your feedback helps shape this study. Connect with study staff, CAB members, attend meetings, or share your thoughts and ideas online. Together, we are working towards a deck park that belongs to everyone.

Meaningful
Public
Involvement.
Beyond
Meetings!

We want
stakeholders and
community residents
to have a voice in
shaping this study.

Handouts, maps, and
CAB information are
provided for ongoing
communication.

CAB members
gather feedback,
share updates, and
help guide the
planning process to
reflect community
priorities.

CAB members also
listen and collect
input outside of
official community
engagement
meetings.
