

Salem Rd. Reconstruction (Conway) (S)

Dave Ward Drive (Hwy. 60) to College Avenue

What Is The Salem Road Reconstruction Project?

The purpose of the project is to improve Salem Road from College Avenue to Dave Ward Drive in the City of Conway, Faulkner County, Arkansas. The project is needed to accommodate current and future traffic as well as upgrade pedestrian and bicycle accommodations along a heavily traveled corridor that is either adjacent to or directly services multiple elementary schools, neighborhoods, public parks, walking/bike trails, and businesses. The proposed improvements include widening to three lanes, curb and gutter, storm sewer, one-way cycle track, sidewalk, and replacement of the existing traffic signal at Carl Stuart Road. Total lengths of the proposed roadway improvements are less than one mile.

Why Are We Meeting Today?

The City of Conway, in cooperation with the Arkansas Department of Transportation and Metroplan, is conducting a public involvement meeting to gather input on the proposed plans to improve Salem Road between Dave Ward Drive (Hwy. 60) and College Avenue in Conway, Arkansas.

Through the materials at this public involvement meeting, we will display the proposed project and you will have an opportunity to express your opinions. The meeting information has been prepared to provide general information about the proposed project. The City of Conway and Garver staff are here to answer your questions and provide you information.

What Happens After This Meeting?

The City of Conway invites interested individuals and entities to provide comments on the proposed plan. The public comment period began August 1, 2023, and will extend until August 16, 2023. Personally identifiable information provided by individuals submitting public comments may be published.

After a review of comments received from citizens, public officials, and public agencies, a final Tier 3 Categorical Exclusion document will be prepared and submitted to FHWA, documenting the final environmental clearances and impacts associated with the proposed plan.
