What's Next?

- The **roadway design** will continue to be refined, and a draft Environmental Assessment is expected to be prepared in 2024.
- A Location and Design **Public Hearing** is anticipated in summer 2024.
- The **Right-of-Way** acquisition and **utility** relocation work would follow in 2025.
- This is a Construction Manager-General Contractor (CM-GC) project, which means ARDOT uses a **procurement process** to select a Contractor to assist in the final design and to construct the project.

Thank you for your participation!
