

US Highway 11 Widening

Forrest and Lamar counties, Mississippi

Why Are We Having This Meeting?

The purpose of this public meeting is to allow the public the opportunity to **review and comment** on the conceptual design to improve multimodal access along US 11 to the Eagle One Mega Site (EOMS) and accommodate future traffic demand in a safe and efficient manner. Improvements will include widening or improving shoulders and a railroad bridge. The project is approximately 3.5 miles in length.

The format for this meeting is an **open house**, which means there is no formal presentation. You are encouraged to view the maps and materials, ask questions, and provide comments. Your comments are very important and could help shape the location and nature of future improvements.

The public can provide comments to MDOT or Garver personnel by **Wednesday, February 4, 2026**, by any of the following methods:
