

# Highway 12 - Highway 279 Intersection Improvements

## Bentonville, Arkansas (Benton County)

### Project Background

- The purpose of this project is to improve the intersection of Highway 12 and Highway 279 in the City of Bentonville, Arkansas.
- The proposed intersection improvements include the construction of a two-lane roundabout with dual left turns, roadway approach improvements, drainage improvements, and sidewalk and shared-use path construction. Specifically, the design allows for more efficient traffic flow and reduces the need for lane changes within the roundabout.
- Additional features include the addition of a 12-foot-wide multi-use path and a 5-foot-wide sidewalk along the roadways, curb and gutter installations, and an enclosed drainage system. The project will require about 3.66 acres of additional right-of-way, 1.09 acres of permanent grading/drainage easements, and 0.49 acres of temporary construction easements, pending final design approval.

### Project Benefits and Improvements

Two-Lane Roundabout

Roadway Approach Improvements

Drainage Improvements

Sidewalks and Multi-Use Paths

### Why Are We Having This Meeting?

The purpose of this meeting is to present and discuss proposed plans to improve the intersection of Highway 12 and Highway 279 in Bentonville, Arkansas. This is an “open house” public involvement meeting, which means no formal presentations will be given. The City of Bentonville and Garver staff are here to answer questions and provide information.

### What's Next?

Comments received during the comment period (June 26 - July 11) will be reviewed and addressed by the the City of Bentonville.
