Comments Received

After a **review of comments** from citizens, public officials, and public agencies, a Finding of No Significant Impact (FONSI) document will be prepared for review by the FHWA. If the FHWA approves the FONSI, it will conclude the environmental process and right-of-way acquisition can begin.

Schedule

The **Right-of-Way acquisition** is expected to begin in late 2024 and **utility relocation work** would follow in 2025.

This is a **Construction Manager-General Contractor (CM-GC) project**, which means ARDOT uses a procurement process to select a Contractor to assist in the final design and to construct the project.
